PREZIOSO CLOCK

We did something bold: we turned a snare drum into a masterpiece of time. The PREZIOSO Clock 18K reimagines the iconic drum shape as an 18-karat gold creation – where rhythm meets refinement.

CONCERTO ART

When art converges with time, it gives life to an exquisite object that transcends mere utility. The original canvases by Morgana Alomia, seamlessly integrated within the Concerto Clock Collection, transform this timepiece into a captivating centerpiece

TEMPO ⌚ CLOCK

A bold transformation: the iconic snare drum shell evolves into a sophisticated design object—the TEMPO clock—where the flow of time and rhythm merge in perfect harmony. Handcrafted using noble metals such as copper, brass, and bronze, each piece is fully customizable to reflect your unique style and integrate with refinement into any space.

CONCERTO DRUM

Imagine a one-of-a-kind drum kit, handcrafted with brass shells and larch wood from Val di Fiemme, the very forest that once provided tonewood for Stradivari's violins. This remarkable combination creates an instrument where tradition meets innovation, delivering a rich, versatile sound. CONCERTO DRUM is not just a drum set, but a unique, truly exclusive work
